Social Groups
Various social skills groups will be offered for neurodiverse children and adults referred by a school, provider or parent of a child who would benefit. Different themes and skills will be targeted for each group. These groups are meant to be loosely structured hang out style for kids to make friends, learn how to be part of a group and have a safe and welcoming place to come.

PEERS® Groups: Ages 13-17 & Adult
The Program for the Education and Enrichment of Relational Skills (PEERS®) is world-renowned for providing evidence-based social skills treatment to preschoolers, adolescents, and young adults with autism spectrum disorder (ASD), attention deficit/hyperactivity disorder (ADHD), anxiety, depression, and other socio-emotional needs. First developed at UCLA by PEERS® Clinic director, Dr. Elizabeth Laugeson, the program has expanded to locations across the United States, has been translated into over a dozen languages, and is used in over 125 countries across the globe (Semel 2022).

SafetyCare for Families®
Safety-Care for Families is a training program for family members who support children, adolescents, or adults who may exhibit challenging behavior (QBS 2019). The focus in Safety-Care is on prevention, safety, and humane, supportive, evidence-based interventions. Participants will ONLY learn preventative measures to avoid crisis or manage crisis behaviors safely until emergency responders can arrive.
