Instructions and Information Before You Begin

The State Board of Education, which is responsible for certifying school district compliance with the program requirements of Basic Education (WAC 180-16-195, WAC 180-16-200, and RCW 28A.150.220(7)), annually conducts a data collection that allows school districts to confirm compliance.

For the 2022-23 school year, the survey application has been updated to address the evolving need to collect information from districts to help improve the state’s K-12 educational system. It is no longer necessary to complete FP 600 in iGrants as in previous years. Your responses to this survey, and responses to possible follow-up questions from SBE staff, will complete the reporting requirement for the 2022-23 school year.

The number of questions about credits and graduation requirements have been reduced and new questions have been added about elementary science education and other state-mandated and state-recommended educational elements. The purpose of these questions is to 1) help inform districts of requirements and recommendations in current law, and 2) gather information that helps the Board to promote a system that best meets the goals of Basic Education for all students.

School districts will only be presented with questions appropriate to their student populations. Please be careful on the second page of the survey answering the questions about the grades your district serves.

The survey includes questions about the following topics:
- Instructional hours and days,
- Graduation requirements: subject areas and credits, graduation pathway options, the High School and Beyond Plan, and local graduation requirements
- State-mandated and state-recommended educational offerings and activities
- Mastery-based learning
- Graduation requirement emergency waiver program administration

We recommend that you review the sample survey available here in advance to gather all the information you will need in advance of completing the on-line form. We also provide links to the relevant statutes and rules for you to review as you need. Quick Tip: Please “right click” the link and select the “open in a new tab” to review the statute or rule, which will allow you to continue with the survey uninterrupted.

We believe this survey will take approximately 30-40 minutes to complete. We included an option to save your progress and return later to complete.

Please submit the survey on or before Friday, August 18, 2022.

Please forward any questions you might have to sbe@k12.wa.us. Please include the words "Basic Ed Collection" in the subject line.

NEW THIS YEAR:
This year, we added a "Save and Continue" function that allows you to save work, end the session, and return to the survey at a later time. Look in the lower right corner of the survey screen for the words "save and continue later". After selecting this option and providing your email address, a link to re-access the survey will be sent to you, which you may forward to another person as needed.

At the end of the survey, you will have the chance to Review your Responses and go back to change responses as needed.

You will also receive an email confirmation with a PDF attachment showing your responses to the survey prompts.

6. Graduation Requirements: Subject Areas and Credits and Local Graduation Requirements

The three components of Washington graduation requirements are: subject area and credit requirements ([WAC 180-51-210](http://WAC.180-51-210)), the High School and Beyond Plan ([WAC 180-51-220](http://WAC.180-51-220)), and graduation pathway options ([WAC 180-51-230](http://WAC.180-51-230)).

The following questions provide assurance that districts' graduation requirements align with state minimum graduation requirements for the 2022-23 school year. Also, the Legislature has directed the State Board of Education to survey districts about graduation pathway options. District responses to the questions about graduation pathway options, along with other research, will be used to examine graduation pathway options and make recommendations to the Legislature on removing barriers to implementing graduation pathway options and making the options more equitable for all students.

Yes
82. Please describe the actions the school district took to ensure equity in administration of the graduation requirement emergency waiver program.

Every student was reviewed individually by a team of counselors, administrators, and central office staff to determine any needed intervention. These meetings happen every quarter to ensure students are on track for graduation. We have a database that is updated after every grading term as an early warning system that allows us to view every student. This is also used to design individual interventions for students. There is an extra focus in the late summer/early fall so course adjustments can be made. The district assessment director reviews every student's graduation requirements to see if any credit competency opportunity has been overlooked for students seeking interventions. Counselors also hold separate meetings with every senior in the fall to review credits needed for graduation and then make any adjustments related to schedules, credit retrieval courses, etc... The district focuses its efforts on looking at every student as an individual and creating a plan that best supports that student's educational and post high school plans.

83. The following question seeks information on your school district’s good faith efforts to support each student who was considered for the waiver in meeting the credit and pathway requirements. To what degree did the school district provide individual student advising on the following topics to students being considered for the emergency waiver?
