The district is launching a new parent communication tool called ParentSquare. Beginning Sept. 1, SBLSD will use ParentSquare for robocalls, emails, text messages and more. The new tool offers features and functionality that enhance and streamline family communication and engagement.

Key features:
- One tool for all communication formats
- Real-time, two-way translation
- Families choose communication format/timing

**TEXT MESSAGES**
Direct messages for private or group two-way communication. To receive texts, make sure your cell phone number is in Family Access.

**SMART ALERTS**
One-way messages over email, text and voice. It's "smart" because the message is first sent as a text. If text delivery fails, the system automatically delivers the recorded voice message.

**TRANSLATION**
Two-way, real-time translation supports 106 languages. Allows district staff to communicate with families despite any language barriers.

**MOBILE APP**
Downloading the mobile app is the easiest way to receive all Posts, Events, Photos and Files.

**CONTACT INFO**
Make sure your contact information is up-to-date in Skyward Family Access with your cell phone number in the primary phone field.

Launch date September 1
